Free Inclusive Play Assessments for Pre-School Children with a Disability

As stated in National Children's Bureau Factsheet Inclusive Play (2006) inclusive play is very important for a child's development especially if they have a disability.

AbilityNet is a Charity with funding by The Roald Dahl Foundation enabling us to provide free inclusive computer assessments for children under five with a neurological condition as part of the Play AT ICT Northern Ireland project.

Many children with disabilities could greatly benefit from the enabling power of technology to help them access the same toys and join in the same games as their friends. AbilityNet can help individual children achieve this by using specialist technology or by simply advising parents and guardians how to adapt existing toys. In addition we also loan any equipment recommended to allow individual children a chance to play.

If you would like to book a free assessment for a child or would like more information please email preschool@abilitynet.org.uk or telephone **0800 269545**.
